Commissioners,

Enclosed is a petition that I had sent to you in 1992. To date I have not heard anything from your office, pro or con. Do you still have this on record for action or need I request to have it reactivated? If I can do this with this letter- Make it so.

I know that it is still a viable plan and can be used as I have just returned from the Country of Australia, where there fee for both individual and all repeaters are charged a yearly fee. In 1995 the fee was levied from \$36 Australian to \$51 Australian. I do not feel that a fee for filing every 10 years would be an imposition upon those whom use the amateur privileges. Also this fund could be used for the function of the F.C.C. to handle the applications and police the bands, as this is a costly venture, with spectrum uses and abuses on the increase. Not to mention the unintentional and intentional interferences.

Thank you for your time in this matter. I await your response.

Sincerely,

Eric R. Wolfe

- 7) Petitioner notes that many changes take valuable time to answer and rule upon proposals that are ill prepared and poorly drafted and written.
- 8) Petitioner wishes to assert that in all judicial setting of courts, local to federal, that a fee is paid to file a motion of action in court to Prothonotary offices for civil actions.
- 9) Petitioner moves that the Federal Communications Commission is spending the tax money allotted to them on actions that should be covered in other ways and therefore seeks the commission to charge a PETITION FOR RULEMAKING in the Private Radio Section of the commission, in the way of a Fifty dollar(\$50.xx) filing fee, or a fee that would properly off set the cost incurred in these actions.

WHEREFORE THE PETITIONER MOVES THE FEDERAL COMMUNICATIONS COMMISSION TO PLACE THIS PROPOSAL IN ACTION AS IS FILED.
